### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-4, 6, 7, 10, 12-14 and 16-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Kutchey, et al. (6,364,349)

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Kutchey discloses an apparatus for helping to protect an occupant of a vehicle that has a roof 18, a side structure 16, and a trim piece 150 overlying the side structure, the apparatus comprising an inflatable curtain 14; an inflator 24; a fill tube 22; and a bracket 26 comprising a fill tube support portion 26a connectable with the fill tube; a connecting portion (not shown) connectable with the vehicle; and a deployment portion. The fill tube support portion has a curved configuration with first and second opposite ends 100a, 120a, the connecting portion extending transversely from the first end of the clamping portion, the deployment portion extending transversely from the second end of the clamping portion. The fill tube support portion 26a at least partially encircles a portion of the fill tube to connect the bracket to the fill tube. The fill tube support portion has an inner surface with a cylindrical portion that mates with a cylindrical outer surface of the fill tube. The deployment portion extends away from the side structure when the bracket is connected to the vehicle. The deployment portion defines a concave channel for receiving the inflatable curtain in a deflated and stored condition. The deployment portion comprises a first portion that extends along the side structure of the vehicle away from the vehicle roof and a second portion that extends transverse to the first portion away from the side structure and inboard in the vehicle, see figures 6 and 7. The deployment portion extends below the inflatable curtain when the inflatable curtain is in a stored and deflated condition.

***Allowable Subject Matter***

3. Claims 5, 8, 9, 11 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Faye M. Fleming whose telephone number is (571) 272-6672. The examiner can normally be reached on M-F (9:00-5:00).
